

The Great Plains Laboratory, LLC

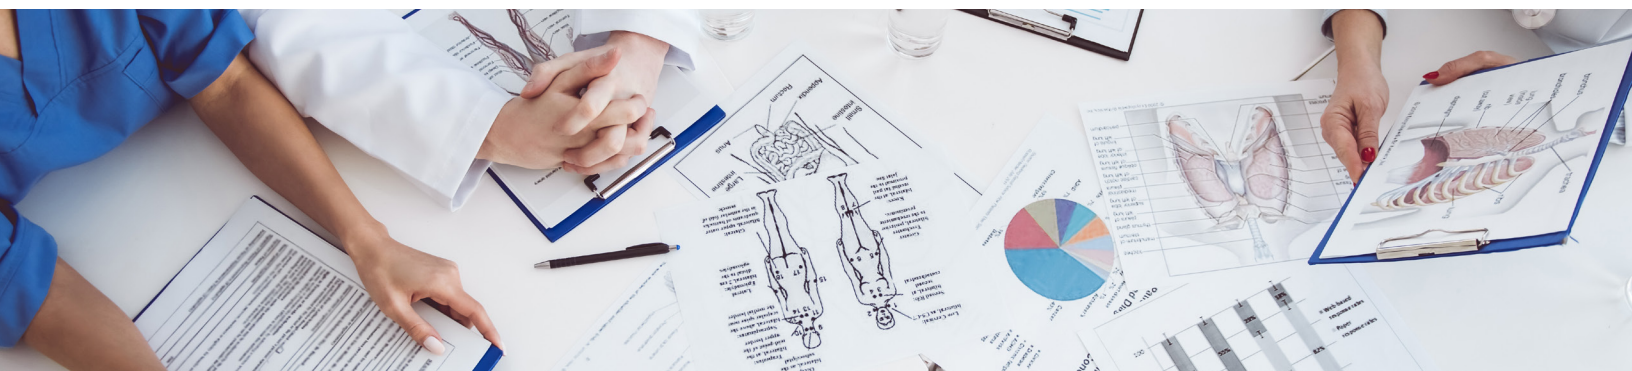

## Who We Are

### WORLD LEADER IN METABOLIC, MITOCHONDRIAL, AND ENVIRONMENTAL-FACTOR DIAGNOSTICS

The Great Plains Laboratory (GPL) is a research-based clinical laboratory that offers testing for nutritional and environmental factors in chronic conditions. Our state-of-the-art metabolic tests are not commonly available through other laboratories. Our tests are designed to find the root cause of the medical condition affecting the patient. This allows the medical professional to determine a treatment plan tailored to the personal health conditions of each patient. Our company was founded in 1996 and is currently serving more than 100 countries in the areas of integrative, functional and environmental medicine.

- ✓ Clinical Laboratory Improvement Amendments (CLIA) Certified
- ✓ College of American Pathologists (CAP) Certified
- ✓ Dedicated staff of scientific professionals who monitor effectiveness, quality, and integrity
- ✓ Every test batch is analyzed to ensure laboratory quality
- ✓ Patient samples are frequently split to make sure that different technologists perform similar work
- ✓ Continuously re-evaluating the clinical usefulness of our test markers
- ✓ Constantly researching and developing new markers and tests for chronic conditions

# We Help People With Chronic Conditions

## TOP CONDITIONS

- Autism Spectrum Disorders
- AD(H)D
